

JOSHUA NIÑO C. ANGELES

Address: Blk 1 Lot 3 Flower Drive St., Adelina Homes Subd., San Isidro, Cainta, Rizal
Phone: 09154594666
Email: angelesjoshua166@gmail.com

SUMMARY

Analytical computer engineering student with a strong multidisciplinary foundation spanning embedded systems programming, CAD mechanical design, and circuit prototyping. Passed the certification as Siemens Solid Edge Certified Mechanical Associate (SSECMA) alongside formal Java programming credentials, demonstrating a rare capability to integrate software logic with physical hardware engineering and 3D modeling.

TECH EXPERIENCE

Academic Technology Experience **May 2026 - Present**

- Participant in IoT Competition in University of Makati
- Speaker in Solid Edge Workshop held by Association of Computer Engineering Students STI OrCa
- Participated as a spectator in Engenium Cup in De La Salle University

Certifications **December 2025 - Present**

- Siemens Solid Edge Certified Mechanical Associate
- Oracle Java Fundamentals Certification

Computer Engineering Experience **August 2023 - Present**

- Automated Pet Food Weighing Vending Machine
- Domestic Cleaning Robot Prototype
- Solar-Powered Mobile Charging System
- 6-DOF Robotic Arm
- Speaker
- Miniature House with Working Lights

EDUCATION

Bachelor of Science in Computer Engineering **August 2023 - Present**

STI Ortigas-Cainta College

- Thesis on "Arduino-Based Automated Pet Food Weighing Vending Machine, Receipt-Printing with Stock Monitoring System"

STEM Strand **July 2021 - July 2023**

STI Ortigas-Cainta College

- Research on "The Efficiency of Automatic Trash Can Decomposer in Converting Food Waste into Fertilizer"
- 1st Best in Infomercial (STEM) in SHS EXPO 2023
- 2nd Best in Product (PHYSICS) in SHS EXPO 2023
- Graduated with Honors

ADDITIONAL SKILLS

Technical Skills

- Programming Skills - Programmed embedded systems and microcontrollers using C++ and Java
- CAD - Designed 3D mechanical models and assemblies
- Circuit Design - Drafted electrical schematics
- Digital Electronics - Designed, simulated, and tested digital logic circuits
- Hardware Prototyping - Designed and built a 6-DOF Robotic Arm and a domestic robot prototype

Soft Skills

- Initiative - Always takes initiative in group projects and tasks
- Hardworking - Consistently met or exceeded strict project deadlines through dedicated effort
- Adaptability - Quickly learns and knows how to adapt and adjusts to the environment and people
- Teamwork - Collaborated effectively with peers to troubleshoot hardware issues
- Time Management - Prioritized concurrent tasks effectively
